Victoria Lily Society Rare Bulb and Plant Auction 2026

1. Lilium ‘Goldsmith’ - Robust, fragrant yellow tetraploid trumpet. Bred by Judith Freeman at Columbia-Platte Lilies. 6’, a good increaser. Hard to get in Canada! From Brenda.

2. *Eremurus robustus* – extra-large root of this dramatic foxtail lily. Grown for many years in our HCP garden, freshly dug and ready to grow! From our HCP Garden.

3. Lilium ‘Sandra’ - large bulb of this rare and dramatic tall henryi-like Canadian hybrid. No longer commercially available. Tall stiff stem does not require staking! From Brenda.

4. *Tritonia X rosea* – many bulbs of this hardy South African freesia-like plant with pink flowers. From Bryce.

5. Agapanthus ‘Silver Moon’ - variegated foliage, lavender blue flowers. From Louise.

6. Lilium ‘Eros’ - 1 large and 2 small bulbs of this rare Chris North hybrid. Dusty coral pink with dark pink spreckles. 3 to 5 feet, high bud count. Blooms in early July. From Brenda.

7. *Paeonia mlokosewitschii* – red form of ‘Molly the Witch’ species peony – BIG! Many eyes for a dramatic show next spring. Seeds and pods dramatic too! From Brian Rowe.

8. *Lilium formosanum priceii* – 3 2-year-old bulbs of this dwarf white trumpet species from Taiwan. Should bloom next year. From Brian Rowe.

9. Iris ‘Juniper Leigh’ - fancy Siberian iris introduced in 2019. Red-violet standards with blue ribs and pink tips, yellow falls heavily veined and edged in red-violet. From Brenda.

10. *Hedychium sp.* with orange flower spike – vigorous hardy ginger. Makes a dramatic clump. From Bryce.

11. *Lilium sargentiae* – hard to get white trumpet species that makes bulbils! Original plant was collected in southern Sichuan, China by Dan Hinkley in 2000. From Jo Wyld.

12. *Trillium flexipes* – crystal white eastern trillium with white ovary. Blooms end of April, early May. Extra-large root plus three more blooming size. From Colin.

13. Woodlander collection: *Asplenium scolopendrium*, *Leucosceptrum* ‘Mountain Madness’, *Primula japonica* (from Evelyn Weejes), *Stylophorum lasiocarpum, Diasporopsis arisanensis.*
14. *Lilium primulinum var. ochraceum* – our poster lily this year – rare, beautiful Indochinese mountain species. It likes warm, wet summers and cool, dry winters. From Ben.

15. Iris ‘Paprikash’ - unusual red Siberian iris, vigorous and beautiful! Paprika red falls with yellow standards. Grows up to 20 inches tall and increases quickly. From Brenda.

16. Lilium ‘Silk Road OP’ - an early Brian Bergman OT hybrid, clear yellow flower reflecting the yellow trumpet heritage of Silk Road. Blooms early July. From Brian.

17. *Impatiens flanaganae* – a large exotic impatiens from South Africa, very rare but hardy! Grows to five feet high from a red potato-like tuber. From Calvor.

18. Rhododendron ‘Razorbill’ - Ken Cox hybrid. Nicely rounded compact shrub with pink tubular flowers. Dwarf plant (2 feet in 10 years). From Robert Burke.

19. *Lilium duchartrei* - 6 bulbs of this delicate sub-alpine forest dwelling turkscap species. Like rich well drained soils with wet summers and dry winters (under snow). From Jacq.

20. *Eucomis* – spotted hybrid – large plant of this impressive hybrid specimen. From Calvor.
21. Lilium ‘Outfacing Aurelian’ - white with purple stippling, likely Charlie Kroell hybrid. Charlie is a NALS legend and was a skilled breeder. From Brian Bergman.

22. *Primula* collection: *P. auricula* ‘Forest Bordeaux’ (deep burgundy red double) + ‘Forest Lime’ (picture below) + *P. marginata* ‘Alan Jones’ (a nice dark blue). From Jacq.

23. Lilium ‘Gordon Wallis Yellow Aurelian’ - 3 huge bulbs of one of Gordon’s hybrids. Grown and multiplied by super-grower Wanita. Own a piece of history! From Wanita.

24. *Cypripedium formosanum* – the ‘easy’ slipper orchid – grow with your trilliums. Much more tolerant of west coast conditions than other cyp’s, yet ‘WOW!’ From Calvor.

25. Lilium ‘Bruce Richardson Golden Shiraz OT sibling’ - 3 huge bulbs of this rare hybrid. Flowers have a less distinct colour transition, cream and maroon. From Wanita.

26. *Begonia grandis* – one pink plant and one white plant of this hardy begonia species. Plants will get large and bloom all summer. From Calvor and Bryce.

27. *Lilium phillippinense* – Native to Taiwan and the mountains of Luzon, northern Philippines. Fragrant. Two stalks, one in seed and one in bloom! From Bryan Emery.

28. Agapanthus inapertus ‘Graskop’ - striking dark purple agapanthus, rarely seen for sale. This form has pendulous flowers. From Calvor.

29. Lilium ‘Netty’s Pride’ - huge bulb of this dramatic and hard to get asiatic hybrid. From Calvor.

30. Rhododendron ‘Fragrantissimum’ - old primary hybrid. Large strongly scented white blooms in May. Requires annual pruning. Rarely seen for sale. From Robert Burke.

31. Lilium ‘Pink Jazz’ - Huge bulb of this hard-to-get pink trumpet OT. Bred by B.C. hybridizer Dick Bazett in the 1990’s. Magnificent! From Brian Bergman.

32. ‘Sonoma Halo’ Itoh peony – large root with five eyes, huge fully double yellow flowers, sometimes with a touch of red in the center. Rosette winning blooms! From Ted Baker.

33. Lilium “Bratislavin Prince’ - a black heart hybrid from Anton Mego in Europe. Aurelian-type flowers with white tepals and large black nectaries grading into a narrow yellow/orange band. Striking and rare! From Brian Bergman.
